# 1 Overview

Wards is a spatial representation of the gazetted ward districts, which are a subset of Local Government Area boundaries defined by State and Territory governments. Wards represent distinct areas within a local government area that relate to the election of councillors for the related local government. Wards aggregates the representations unique to each jurisdiction into a consistent seamless representation of the wards of Australia. Geoscape welcomes your feedback on the Wards product. We also publish regular product development updates on our website ( [www.geoscape.com.au](http://www.geoscape.com.au) ).

## 1.1 Release Summary

This product was released to customers on **19 May 2025** with data extracted on 9 May 2025.

- This release is a full national data population for Version 1.1 of the Wards product, described by Wards Product Guide v1.1.

Any issues that have been identified for this release are described in the Issues section.

# 2 Change Notifications

## 2.1 Victoria

Victorian Wards have seen almost half of the dataset change now reflecting the boundaries from the 2024 subdivision review. <https://www.vec.vic.gov.au/electoral-boundaries/council-reviews/subdivision-reviews>

# 3 Updates

## 3.1 New and Retired

### New

### 3.3 Other Updates

There were no other updates.

## 4 Issues

### 4.1 New Issues

No new issues.

## 4.2 Resolved Issues

No resolved issues to note.

## 4.3 Known Issues

### Un-enclosed gaps between Wards in NT

There are two un-enclosed gaps present in the Wards data in NT. These gaps are not valid and do not represent rivers. Below, the un-enclosed gaps can be seen between polygons when they are dissolved together.

### SA coastline generalisation for Central Ward

Jurisdictional changes to the coastline geometry have resulted in polygon generalisation for 'Central Ward' Ward in South Australia. These changes are related to boundary changes made to 'The DC of Grant' LGA. This has reduced the number of vertices in the polygons resulting in geometry differences and, in some scenarios, the creation of additional polygons for the LGA. Below is an example where a previous Admin Boundaries LGA outline (blue) can be seen compared to the new Local Government Area product representation (red area).

Geoscape is currently investigating this generalisation with the SA jurisdiction.

## 5 Future Considerations

This section outlines enhancements or changes under consideration, but not planned into a specific release. For further details on future initiatives, please contact Geoscape Support.

## 6 Annex A – Release Counts

Additional, retired and total Wards counts and the percent change to the previous release have been listed in the table below.

TABLE	STATISTIC	ACT	NSW	NT	OT	QLD	SA	TAS	VIC	WA	TOTAL
wards	Additional	0	0	0	0	0	15	0	468	46	529
	Retired	0	0	0	0	0	15	0	313	46	374
	Updated	0	0	0	0	0	0	0	0	0	0
	Total	0	0	830	0	0	155	0	468	226	1,679
	% Change	0.00%	0.00%	0.00%	0.00%	0.00%	0.00%	0.00%	49.52%	0.00%	10.17%
